Jerad was born in Henry County, Virginia before Patrick County was formed in 1791. His given name was Jerad but it also appears as Jerrad, Jarratt and other forms. The surname for this family started as Stoe, then Stow and later became Stowe. Some records were first recorded as Stone while others have later been misread as that. Patrick County records him paying taxes from 1796 to 1803. The original GEDCOM import indicated he died in 1810 at the age of 34 years but I believe he passed away before then. After his death, I believe Sarah raised their sons in his or her parents home. She appears in the household of her son Thomas in every census from 1830 to 1850 until her death in 1858. County Registers list her cause of death as pleurisy and her parents first names as Thomas and Nancy with a last name of Holland. Their Marriage Bond lists Thomas Hollandsworth along with Jerad.

In November of 1826, his son James and wife Martha sell their land and begin their journey West. In 1840 they had settled in Monroe, Kentucky where most of their children would be born. In 1850 they had moved again to Clinton Township, Clinton, Missouri. On a 1855 Tax Assessment, James owned land and lived on Choctaw creek in Grayson, Texas.

At some point, citizens of both Patrick and Henry called for better defined borders. While this family appears in Patrick to begin with and later in Henry, I do not believe they physically moved. All taxes paid and land purchases were conducted in Patrick County up until the 1860 census.

Thomas passed one month after his mother in 1858 before the Civil War. Almost all of Jerad's grandsons fought in the Civil War. There is enough evidence to show that Thomas lost three sons in battle or later from injuries. James had one son I cannot account for but the rest survived.

After multiple deaths between 1858 and 1874, all of Thomas' daughters and wife remained with his son Edward until their deaths. Sometime after 1870, they had all moved to the Mayo River District in Patrick County. I do not believe any of them ever married. As a unit they helped Edward farm tobacco. The following generations in Virginia continued this tradition and worked together sharing labor on each other's farms.
